Getting started

Assembly

Before you start using your phone, you need to insert a SIM card and the battery.
To insert the SIM card
1 Remove the battery cover.
2 Slide the SIM card into its holder with the gold-colored contacts facing down.
To insert the battery

1 Insert the battery with the label side up and the connectors facing each other.
2 Slide the battery cover into place.
To attach the battery cover

1 Align the tabs on the back of the battery cover with the phone slots.
2 Snap the cover into place on both sides.

To remove the battery cover

- Use the slots to detach cover.

To remove the SIM card

1 Remove the battery cover.
2 Remove the SIM card from its holder.

Turning on the phone

To turn on the phone

1 Press and hold down 📵.
2 Enter your SIM card PIN, if requested and select OK.
3 Select a language.
4 Select Yes to use the setup wizard.

💡 *If you want to correct a mistake when you enter your PIN, press ⓒ.*

❗ *Before turning the phone off, you must return to standby.*

SIM card
The SIM (Subscriber Identity Module) card, which you get from your network operator, contains information about your subscription. Always turn off your phone and detach the charger before you insert or remove the SIM card.

You can save contacts on the SIM card before you remove it from your phone. See To copy names and numbers to the SIM card on page 30.

PIN

You may need a PIN (Personal Identification Number) to activate the services in your phone. Your PIN is supplied by your network operator. Each PIN digit appears as *, unless it starts with emergency number digits, for example, 112 or 911. You can see and call an emergency number without entering a PIN.

If you enter the wrong PIN three times in a row, the SIM card is blocked. See SIM card lock on page 67.

Startup screen

The startup screen appears when you turn your phone on. See *Using pictures* on page 46.

Standby

After you have turned your phone on and entered your PIN, the name of the network operator appears. This view is called standby.

Help

In addition to this User guide, Getting started guides and more information are available at *www.sonyericsson.com/support*.

Help in your phone

Help and information are available in your phone. See *Navigation* on page 15.

Using the USB charger

To connect the charger and charge the battery

1 Connect the USB cable plug to the AC adapter USB socket, as shown in the above illustration. The USB cable is supplied with your phone.

2 Connect the USB cable connector to your phone. Press a key to view the charging status on the screen. It takes approximately 2.5 hours to fully charge the battery.

To remove the charger
1 Charge your battery until the battery icon indicates a full charge.
2 Tilt the USB charger connector upwards to remove it.

Note:

1 The USB cable for the new USB charger shown in the illustration (Part. B in the new-type charger illustration) on page 9 **is only intended for charging your phone. Do not use it for transferring data.**

2 The USB cable for the USB charger shown in the illustration (Part. B in the new-type charger illustration) is only intended for connection to the AC adapter (Part. A in the new-type charger illustration) to charge your phone. **It must not be used for connection to a PC. It can only be used for charging your phone. Never use it for charging accessories.**

3 Sony Ericsson strongly recommends that you **use only Sony Ericsson branded original batteries, the part of power supply device in accordance with YD/T 1591-2006 specifications of Communications Industry Standards of P. R. China (Part A in the new-type charger illustration) and the USB cable supplied with your phone to charge the phone**. The use of third-party products may decrease the performance of your phone and/or pose a risk to your health or safety.

4 Sony Ericsson recommends that **you never mix the use the new USB charger and the old non-USB charger. The phone with new-type charger in box cannot be charged with the old-type charger, and vice versa**. The use of both the chargers may decrease the performance of your phone and/or pose a risk to your health or safety.

-☀- *You can use the phone during charging. You can charge the battery for more or less than 2.5 hours. Interrupted charging will not damage the battery.*

⚠ *Use only Sony Ericsson branded original batteries intended for use with your mobile phone. If you use other batteries you may not be able to charge your phone.*

To enter text using T9™ Text Input
1 From standby select, for example, Menu > Messaging > Write new > Text message.
2 If 🅣9 is not displayed, press and hold down (✳a/A) to change to T9 Text Input.

3 Press each key only once, even if the letter you want is not the first letter on the key. For example, to write the word "Jane", press ⑤, ②, ⑥, ③. Write the whole word before looking at the suggestions.
4 Use 🔺 or 🔻 to view suggestions.
5 Press #–🔅 to accept a suggestion.

To enter text using multitap
1 From standby select, for example, Menu > Messaging > Write new > Text message.
2 If 🆃🄰 is displayed, press and hold down *a/A to change to multitap text input.
3 Press ② – ⑨ repeatedly until the desired letter appears.
4 When a word is written, press #–🔅 to add a space.

To add words to the built-in dictionary
1 When you enter text using T9 Text Input, select Options > Spell word.
2 Write the word using multitap input and select Insert.

🔅 *Multitap input only applies when Latin characters are selected as writing language.*

Chinese input

This mobile phone has different input methods for entering Chinese characters:

- Stroke input
- Pinyin input

You can use these methods, for example, to enter Chinese names and Chinese short messages.

Switching between Chinese input methods

In the Chinese editing mode, you can select and switch quickly to another input method by pressing and holding *a/A.

General instructions

Regardless of which input method you choose, your phone has a function to speed up the entry of Chinese characters. Whenever you enter a stroke or a Pinyin letter, a candidate row of the most frequently used characters containing that stroke or relating to that letter appears at the bottom of the screen.

If the character you want is not displayed in the candidate row, press ⊙ to present another candidate row. Continue pressing ⊙ until the character you want is displayed. Alternatively, you can enter the next stroke or Pinyin letter and a new set of characters will immediately be displayed in the candidate row. To go back to the previous row, press ⊙. To select a character in the candidate row, press the navigation key or press and hold the key corresponding to the number above the character you want to enter.

Stroke input

A Chinese character is built up of strokes. There are more than 30 basic strokes, which are grouped into 5 stroke categories. Each category is represented on the keypad by one of the keys ① – ⑤. The Wild Card key ⑥, is used when you are not sure of which stroke to use.

Stroke categories

The 5 stroke categories are defined in the table below:

Number Key	Stroke Category	Basic Stroke	Stroke Name	Character
①	一	一	Over	王 十 在 七 天
		⁄	Lift	海 红 牡 状 习
②	丨	丨	Down	中 业 上 门 丑
		亅	Down-Hook	小 水 打 子 承
		⁄	Short Slope Down	直 真 质 草
③	丿	丿	Long Left Slope	八 九 丹 风 片
		⁄	Over Slope	香 千 乞 后 丢
		⁄	Short left Slope	而 页 面 学 殷
④	丶	丶	Dot	六 学 雷 心 性
		⟍	Right Slope	人 火 又 送 林
		∟	Down-Curved-Over	四 西 酉 酸
⑤	乛	⌐	Down-Over	山 巨 屯 母 凶
		∠	Left Slope-Over	么 去 公 约 能
		⟍	Left Slope-Dot	女 要 好 巡 巢
		γ	Down-Lift	衣 以 饭 收 长

Number Key	Stroke Category	Basic Stroke	Stroke Name	Character
		⟍	Right Slope-Hook	我 或 民 成 伐
		↶	Down-Over-Hook	心 必 思 忘
		∪	Down-Over-Curved-Hook	电 也 毛 兄 孔
		ㄅ	Down-Over-Left Slope	专 传 转
(5)		ㄅ	Down-Over-Down-Hook	马 与 张 号 费
		ㄋ	Down-Over-Down	鼎 鼐
		→	Over-Hook	写 字 皮 通 免
		ㄱ	Over-Down	口 已 户 书 骨
		ㄱ	Over-Down-Hook	力 习 也 同 永
		ㄱ	Over-Left Slope	又 之 登 多 社
		ㄋ	Over-Down-Over-Left Slope	及 极 廷 建
		ㄣ	Over-Left Slope-Curved-Hook	阿 队 陈 那 部

Number Key	Stroke Category	Basic Stroke	Stroke Name	Character
		ㄋ	Over-Down-Over-Hook	乃 透 鼐 隽 杨
		ㄅ	Over-Down-Over-Down	凸
		)	Curved-Hook	狗 豹 家 逐 狂
		ㄟ	Over-Down-Over-Curved-Hook	乙 九 瓦 飞 风
		ㄟ	Over-Down-Over	投 沿 船 凹
		ㄟ	Over-Down-Lift	话 计 认 讯
(6)	? (Wild card key)			

Components

The basic building units of Chinese characters are components that are made up of strokes. After entering the first two strokes of the desired character, the component and character candidates that started with that stroke are displayed in the candidate row. Using components is a fast method for entering complex characters.

The smaller candidates surrounded by dotted frames are components, and the bigger candidates without dotted frames are characters.

For example, to enter " 信息 "

1 Enter " ノ", "丨" and "乀".
2 Move the cursor to " 信 ", press Select.
  Move the cursor to " 息 ", press Select
  again to select " 息 ".

Example of using the wild card key

The wild card key ⑥, is used to
supplement unclear strokes in entering
characters. If you want to enter " 互 ",
but you only know that " 一 " is the first
and the last stroke of the character and
that the total number of strokes is four,
enter ①, ⑥, ⑥, ①. The
character is displayed in the candidate
row.

Pinyin input

Press the keys containing the required
Pinyin letters, and the phone will make
various proposals on the screen,
according to the pronunciation rules
of Mandarin.
Below is the key mapping of Pinyin
letters on the keypad.

Number Key	Pinyin Letter
②	a b c
③	d e f
④	g h i
⑤	j k l
⑥	m n o

Number Key	Pinyin Letter
⑦	p q r s
⑧	t u ü
⑨	w x y z

- ☀ *On the keypad, the letter ü is replaced*
  by v.

For example, to enter " 信息 "

1 Press ⑨, ④, ⑥.
2 When "xin" is highlighted, press ⊕ or
  ⊕ and select " 信 ", then press Select.
  (If you want to enter any of the other
  suggested Pinyin combinations, scroll
  up or down to the desired combination).
3 Press Select again to select "息", when
  " 息 " is highlighted.

Fuzzy Pinyin

Fuzzy Pinyin is an option for the Pinyin
input method, which contains additional
spelling alternatives.
When in Pinyin input mode, press
Options > Writing language > Fuzzy
Pinyin > On.

Input punctuation, symbols and
smilies

Under any Chinese input mode, press
⊛, to see the table of punctuation
marks, symbols and smilies. Use the
navigation key to make a selection.
Press ⊛ to enter a space into the text.

Walkman® and music

You can listen to music, audio books and podcasts. Use *Sony Ericsson Media Manager* to transfer content to your phone. For more information go to the Getting started section at *www.sonyericsson.com/support*.

! *Sony Ericsson Media Manager software is available for download at www.sonyericsson.com/support.*

Transferring content to and from a computer

Required operating systems
You need one of these operating systems to use the software included on the CD:

- Microsoft ®Windows Vista™ 32 bit or 64 bit versions of: Ultimate, Enterprise, Business, Home Premium, Home Basic)
- Microsoft ®Windows XP (Pro or Home), Service Pack 2 or higher

Locks

SIM card lock

This lock only protects your subscription. Your phone will work with a new SIM card. If the lock is on, you have to enter a PIN (Personal Identity Number).

If you enter your PIN incorrectly three times in a row, the SIM card is blocked and you need to enter your PUK (Personal Unblocking Key). Your PIN and PUK are supplied by your network operator.

To unblock the SIM card

1 When PIN blocked appears, enter your PUK and select OK.
2 Enter a new four-to-eight-digit PIN and select OK.
3 Re-enter the new PIN and select OK.

To edit the PIN

1 From standby select Menu > Settings > the General tab > Security > Locks > SIM protection > Change PIN.
2 Enter your PIN and select OK.
3 Enter a new four-to-eight-digit PIN and select OK.
4 Re-enter the new PIN and select OK.

> ⚠ *If Codes do not match appears,
> you entered the new PIN incorrectly.
> If Wrong PIN appears, followed by Old
> PIN:, you entered your old PIN incorrectly.*

To use the SIM card lock
1 From standby select Menu > Settings
  > the General tab > Security > Locks
  > SIM protection > Protection.
2 Select an option.
3 Enter your PIN and select OK.

Phone lock
You can stop unauthorized use of your
phone. Change the phone lock code
(0000) to any four-to-eight-digit personal
code.

> ⚠ *It is important that you remember your
> new code. If you forget it, you have to
> take your phone to your local
> Sony Ericsson retailer.*

To use the phone lock
1 From standby select Menu > Settings
  > the General tab > Security > Locks
  > Phone protection > Protection.
2 Select an option.
3 Enter the phone lock code and select
  OK.

To unlock the phone
• Enter your code and select OK.

To change the phone lock code

PUK blocked. Contact operator.

You entered your personal unblocking key code (PUK) incorrectly 10 times in a row.

Important information

Sony Ericsson Consumer Web site

On *www.sonyericsson.com/support* there is a support section where help and tips are only a few clicks away. Here you find the latest computer software updates and tips on how to use your product more efficiently.

Guidelines for Safe and Efficient Use

Please follow these guidelines. Failure to do so might entail a potential health risk or product malfunction. If in doubt as to its proper function, have the product checked by a certified service partner before charging or using it.

Recommendations for care and safe use of our products

- Handle with care and keep in a clean and dust-free place.
- **Warning!** May explode if disposed of in fire.
- Do not expose your product to liquid or moisture or excess humidity.
- Do not expose to extreme temperatures. Do not expose the battery to temperatures above +60°C (+140°F).

- Do not expose to flames or lit tobacco products.
- Do not drop, throw or try to bend your product.

This is the Internet version of the user's guide. © Print only for private use.

- Do not paint or attempt to disassemble or modify your product. Only Sony Ericsson authorized personnel should perform service.
- If you are in close proximity to the pacemaker and other medical devices or in the hospital, or you have pacemaker or cochlea implanted, or you are using hearing aid, please consult authorized physicians and refer to instructions from medical device manufacturer before you use Mobile phone.
- Discontinue use of electronic devices or disable the radio transmitting functionality of the device where required or requested to do so.
- Do not use the phone in potentially explosive environment, such as gas station, oil depot, chemical factory and other flammable and explosive areas.
- Do not place your product or install wireless equipment in the area above an air bag in your car.
- Caution: Cracked or broken displays may create sharp edges or splinters that could be harmful upon contact.
- Do not use your Bluetooth Headset in positions where it is uncomfortable or will be subject to pressure.

Children

Warning! Keep out of the reach of children. Do not allow children to play with mobile phones or accessories. They could hurt themselves or others. Products may contain small parts that could become detached and create a choking hazard.

Power supply (Charger)

Connect the charger to power sources as marked on the product. Do not use outdoors or in damp areas. Do not alter or subject the cord to damage or stress. Unplug the unit before cleaning it. Never alter the plug. If it does not fit into the outlet, have a proper outlet installed by an electrician. When power supply is connected there is a small drain

of power. To avoid this small energy waste, disconnect the power supply when the product is fully charged. Use of charging devices that are not Sony Ericsson branded may impose increased safety risks.

Battery

New or idle batteries can have short-term reduced capacity. Fully charge the battery before initial use. Use for intended purpose only. Charge the battery in temperatures between +5°C (+41°F) and +45°C (+113°F). Do not put the battery into your mouth. Do not let the battery contacts touch another metal object. Turn off the product before removing the battery. Performance depends on temperatures, signal strength, usage patterns, features selected and voice or data transmissions. The stand-by time for this battery is up to 400 hours. Only Sony Ericsson service partners should remove or replace built-in batteries. Use of batteries that are not Sony Ericsson branded may pose increased safety risks.

Note: The environmental protection period (EPUP) of battery is 5 years.

Personal medical devices

Mobile phones may affect implanted medical equipment. Reduce risk of interference by keeping a minimum distance of 15 cm (6 inches) between the phone and the device. Use the phone at your right ear. Do not carry the phone in your breast pocket. Turn off the phone if you suspect interference. For all medical devices, consult a physician and the manufacturer.

Driving

Some vehicle manufacturers forbid the use of phones in their vehicles unless a handsfree kit with an external antenna supports the installation. Check with your vehicle manufacturer's representative to be sure that your mobile phone or Bluetooth handsfree will not affect the electronic

systems in your vehicle. Full attention should be given to driving at all times and local laws and regulations restricting the use of wireless devices while driving must be observed.

GPS/Location based functions

Some products provide GPS/Location based functions. Location determining functionality is provided "As is" and "With all faults". Sony Ericsson does not make any representation or warranty as to the accuracy of such location information.

Use of location-based information by the device may not be uninterrupted or error free and may additionally be dependent on network service availability. Please note that functionality may be reduced or prevented in certain environments such as building interiors or areas adjacent to buildings.

Caution: Do not use GPS functionality in a manner which causes distraction from driving.

Emergency calls

Calls cannot be guaranteed under all conditions. Never rely solely upon mobile phones for essential communications. Calls may not be possible in all areas, on all networks, or when certain network services and/or phone features are used.

Antenna

Use of antenna devices not marketed by Sony Ericsson could damage your phone, reduce performance, and produce SAR levels above the established limits. Do not cover the antenna with your hand as this affects call quality, power levels and can shorten talk and standby times.

Radio frequency (RF) exposure and Specific Absorption Rate (SAR)

When your phone or Bluetooth handsfree is turned on, it emits low levels of radio frequency energy. International safety guidelines have been developed through periodic and thorough evaluation of scientific studies. These guidelines establish permitted levels of radio wave exposure. The guidelines include a safety margin designed to assure the safety of all persons and to account for any variations in measurements.

Specific Absorption Rate (SAR) is used to measure radio frequency energy absorbed by the body when using a mobile phone. The SAR value is determined at the highest certified power level in laboratory conditions, but because the phone is designed to use the minimum power necessary to access the chosen network, the actual SAR level can be well below this value. There is no proof of difference in safety based on difference in SAR value.

Products with radio transmitters sold in the US must be certified by the Federal Communications Commission (FCC). When required, tests are performed when the phone is placed at the ear and when worn on the body. For body-worn operation, the phone has been tested when positioned a minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when properly used with an appropriate Sony Ericsson accessory and worn on the body.

For more information about SAR and radio frequency exposure go to: *www.sonyericsson.com/cn*.

Malware

Malware (short for malicious software) is software that can harm your mobile phone or other computers. Malware or harmful applications can include viruses, worms, spyware, and other unwanted programs. While your device does employ security measures to resist such efforts, Sony Ericsson does not warrant or represent that your device will be impervious to introduction of malware. You can however reduce the risk of malware attacks by using care when downloading content or accepting applications, refraining from opening or responding to messages from unknown sources, using trustworthy services to access the Internet, and only downloading content to your mobile phone from known, reliable sources.

Accessories

Use only Sony Ericsson branded original accessories and certified service partners. Sony Ericsson does not test third-party accessories. Accessories may influence RF Exposure, radio performance, sound loudness, electric safety and other areas. Third-party accessories and parts may pose a risk to your health or safety or decrease performance.

Disposal of old electrical and electronic equipment

Electronic equipment and batteries should not be included as household waste but should be left at an appropriate collection point for recycling. This helps prevent potential negative consequences for the environment and human health. Check local regulations by contacting your local city office, your household waste disposal service, the shop where you purchased the product or calling a Sony Ericsson Call Center.

Disposing of the battery

Check local regulations or call a Sony Ericsson Call Center for information. Never use municipal waste.

Declaration of substances

When this product is operated under the conditions in the product manual, the environmental protection period (EPUP) is 20 years.

Access ories and charger	X	O	O	O	O	O

O: Indicates that this toxic or hazardous substance contained in all of the homogeneous materials for this part is below the limit requirement in SJ/T 11363-2006.

X: Indicates that this toxic or hazardous substance contained in at least one of the homogeneous materials used for this part is above the limit requirement in SJ/T 11363-2006.(Currently there are no alternative technologies available).

Memory card

If your product comes complete with a removable memory card, it is generally compatible with the handset purchased but may not be compatible with other devices or the capabilities of their memory cards. Check other devices for compatibility before purchase or use. If your product is equipped with a memory card reader, check memory card compatibility before purchase or use.

Memory cards are generally formatted prior to shipping. To reformat the memory card, use a compatible device. Do not use the standard operating system format when formatting the memory card on a PC. For details, refer to the operating instructions of the device or contact customer support.

Warning!

If your device requires an adapter for insertion into the handset or another device, do not insert the card directly without the required adapter.

Precautions on Memory Card Use

- Do not expose the memory card to moisture.
- Do not touch terminal connections with your hand or any metal object.
- Do not strike, bend, or drop the memory card.
- Do not attempt to disassemble or modify the memory card.
- Do not use or store the memory card in humid or corrosive locations or in excessive heat such as a closed car in summer, in direct sunlight or near a heater, etc.
- Do not press or bend the end of the memory card adapter with excessive force.
- Do not let dirt, dust, or foreign objects get into the insert port of any memory card adapter.
- Check you have inserted the memory card correctly.
- Insert the memory card as far as it will go into any memory card adapter needed. The memory card may not operate properly unless fully inserted.

- We recommend that you make a backup copy of important data. We are not responsible for any loss or damage to content you store on the memory card.
- Recorded data may be damaged or lost when you remove the memory card or memory card adapter, or turn off the power while formatting, reading or writing data, or when you use the memory card in locations subject to static electricity or high electrical field emissions.

Protection of personal information

Erase personal data before disposing of the product. To delete data, perform a master reset. Deleting data from the phone memory does not ensure that it cannot be recovered. Sony Ericsson does not warrant against recovery of information and does not assume responsibility for disclosure of any information even after a master reset.

Loudness warning!

Avoid volume levels that may be harmful to your hearing.

End User Licence Agreement

Software delivered with this device and its media is owned by Sony Ericsson Mobile Communications AB, and/or its affiliated companies and its suppliers and licensors.

Sony Ericsson grants you a non-exclusive limited license to use the Software solely in conjunction with the Device on which it is installed or delivered. Ownership of the Software is not sold, transferred or otherwise conveyed.

Do not use any means to discover the source code or any component of the Software, reproduce and distribute the Software, or modify the Software. You are entitled to transfer rights and obligations to the Software to a third party, solely together with the Device with which you received the Software, provided the third party agrees in writing to be bound by the terms of this License.

This license exists throughout the useful life of this Device. It can be terminated by transferring your rights to the Device to a third party in writing.

Failure to comply with any of these terms and conditions will terminate the license immediately.

Sony Ericsson and its third party suppliers and licensors retain all rights, title and interest in and to the Software. Sony Ericsson, and, to the extent that the Software contains material or code of a third party, such third party, shall be entitled third party beneficiaries of these terms.

This license is governed by the laws of Sweden. When applicable, the foregoing applies to statutory consumer rights.

In the event Software accompanying or provided in conjunction with your device is provided with additional terms and conditions, such provisions shall also govern your possession and usage of the Software.

Limited Warranty

Communications AB, SE-221 88 Lund, Sweden, (Sony Ericsson) or its local affiliated company provides this Limited Warranty for your mobile phone and original accessory delivered with your mobile phone (hereinafter referred to as "Product").

Should your Product need warranty service, please return it to the dealer from whom it was purchased, or contact your local Sony Ericsson Call Center (national rates may apply) or visit *www.sonyericsson.com/cn* to get further information.

WHAT WE WILL DO

If, during the warranty period, this Product fails to operate under normal use and service, due to defects in design, materials or workmanship, Sony Ericsson authorised distributors or service partners, in the country/region* where you purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.

Sony Ericsson and its service partners reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.

Please note that some of your personal settings, downloads or other information may be lost when your Sony Ericsson Product is repaired or replaced. At present Sony Ericsson may be prevented by applicable law, other regulation or technical restrictions from making a backup copy of certain downloads. Sony Ericsson does not take any responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Sony Ericsson Product such as downloads, calendar and contacts before handing in your Sony Ericsson Product for repair or replacement.

CONDITIONS

1   The warranty is valid only if the original proof of purchase issued to the original purchaser by a Sony Ericsson authorised dealer, specifying the date of purchase and serial number**, for this Product, is presented with the Product to be repaired or replaced. Sony Ericsson reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the Product from the dealer.

2   If Sony Ericsson repairs or replaces the Product, the repaired or replaced Product shall be warranted for the remaining time of the original warranty period or for thirty (30) days from the date of repair, whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Sony Ericsson.

3   This warranty does not cover any failure of the Product due to normal wear and tear, or due to misuse, including but not limited to use in other than the normal and customary manner, in accordance with the Sony Ericsson instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid.

    A rechargeable battery can be charged and discharged hundreds of times. However, it will eventually wear out – this is not a defect. When the talk-time or standby time is noticeably shorter, it is time to replace your battery. Sony Ericsson recommends that you use only batteries and chargers approved by Sony Ericsson.

    Minor variations in display brightness and color may occur between phones. There may be tiny bright or dark dots on the display. These are called defective pixels and occur when individual dots have malfunctioned and can not be adjusted. Two defective pixels are deemed acceptable.

    Minor variations in the appearance of the camera image may occur between phones. This is not uncommon in digital cameras and does not mean that the camera is defective in any way.

4   Since the cellular system on which the Product is to operate is provided by a carrier independent from Sony Ericsson, Sony Ericsson will not be responsible for the operation, availability, coverage, services or range of that system.

5   This warranty does not cover Product failures caused by installations, modifications, or repair or opening of the Product performed by a non-Sony Ericsson authorised person.

6   The warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not Sony Ericsson branded original accessories intended for use with the Product.

7   Tampering with any of the seals on the Product will void the warranty.

8   THERE ARE NO EXPRESS WARRANTIES, WHETHER WRITTEN OR ORAL, OTHER THAN THIS PRINTED LIMITED WARRANTY. ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SONY ERICSSON OR ITS LICENSORS BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL LOSS; TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY LAW.

    Some countries/regions/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

    The warranty provided does not affect the consumer's statutory rights under applicable legislation in force, nor the consumer's rights against the dealer arising from their sales/purchase contract.

    * In some countries/regions additional information is requested. If so, this is clearly shown on the valid proof of purchase.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

Any change or modification not expressly approved by Sony Ericsson may void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

Industry Canada Statement

This device complies with RSS-210 of Industry Canada.

Operation is subject to the following two conditions:
(1) this device may not cause interference, and
(2) this device must accept any interference, including interference that may cause undesired operation of the device.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
